The Palace,
Bangalore.
4th March 1923.

My dear Raja Sahib,

I have really taken an unconsciously long time to answer your last letter. I regret my delay the more because the letter ~~has~~ was even more charming than usual, and you had also asked for some information.

April and May are our hottest months; ~~that means~~ the maximum temperature being 95° but the heat is nothing like what it is in your parts. March is fairly pleasant. Ooty, of course, is delightful. Those who are accustomed to the heat of the Punjab need not fear our hot weather.

We are staying here till the 7th, ~~and~~ then we go back to Mysore and ~~thence~~ more to Ooty

by the end of the month.

There was a smart shower yesterday afternoon, which has rendered a delightfully cool and pleasant. We are really fortunate in respect of our climate.

I hope we shall meet soon.

Yours,

Yours ever,

M
